

SUN and GEOSPHERE

CONTENTS OF VOLUME 3 – NUMBER 1 – 2008

EXPECTED RADIATION HAZARD AT DIFFERENT PHASES OF SOLAR CYCLE BASED ON STATISTICAL PROPERTIES OF SOLAR ENERGETIC PARTICLE FLUENCIES <i>L.I. Dorman, L. Pustil'nik</i>	7
COSMIC RAY SHOWERS AND THEIR RELATION TO THE STRATOSPHERIC SUDDEN WARMINGS <i>N. A. Kilifarska, Y. K. Tassev, D. Y. Tomova</i>	10
COSMIC RAYS AND SPACE WEATHER EFFECTS: METHODS OF FORECASTING <i>L.I. Dorman</i>	18
MUON TELESCOPES AT BASIC ENVIRONMENTAL OBSERVATORY MOUSSALA AND SOUTH-WEST UNIVERSITY – BLAGOEVGRAD <i>I. I. Angelov, E. S. Malamova, J. N. Stamenov</i>	20
RECENT COSMIC RAY STUDIES WITH LEAD FREE NEUTRON MONITOR AT BASIC ENVIRONMENTAL OBSERVATORY MOUSSALA <i>A. Mishev, A. Bouklijski, L. Visca, O. Borla, J. Stamenov, A. Zanini</i>	26
INVERSE PROBLEMS FOR GREAT SOLAR ENERGETIC PARTICLE EVENT: MONITORING BY NETWORK STATIONS AND FORECASTING <i>L.I. Dorman</i>	29
LARGE SCALE FIELD ALIGNED CURRENT DERIVED FROM INTERCOSMOS-BULGARIA-1300 SATELLITE. COMPARISON WITH EMPIRICAL MODELS <i>D. Danov, P. Nenovski</i>	38
SONIFICATION FOR THE ANALYSIS OF PLASMA BUBBLES AT 21 MHz <i>Wanda L. Diaz-Merced, Robert M. Candey, John C. Mannone, Fields David, Emilio Rodriguez</i>	42
THE SOLAR WIND ENERGY INPUT RATE AND RECOVERY OF THE MAGNETOSPHERIC RING CURRENT DURING THE LAST TWO SOLAR CYCLES <i>L. Biktash (Sizova)</i>	46
THE IMPORTANCE OF HEAT CONDUCTION AND VISCOSITY IN SOLAR CORONA AND COMPARISON OF MAGNETOHYDRODYNAMIC EQUATIONS OF ONE-FLUID AND TWO-FLUID STRUCTURE IN CURRENT SHEET <i>Umit Deniz Goker</i>	52
